

## Help Wanted

By Scott Sackrider

As Farpoint Observatory goes, I think I have the easiest position. As facilities manager, my duties include changing furnace filters, cleaning, key holder management, and helping those who are the actually mechanically-inclined. For those of you who don't know (which, I presume is practically everyone), I'm in the National Guard. After 23 years of avoiding wars, they finally figured out I'm one of the few yet to win a free trip to Iraq. I start training weekend in Salina in October, and we're scheduled to leave next fall. For that reason we will be looking for someone who would like to take over these functions. I can assist until I leave, but we need to get someone elected this fall so we don't have to take volunteers at the last minute. If anyone is interested, please nominate yourself on the ballot in this issue.
